

Muhammed Ajnas

UI/UX Designer

ABOUT ME

I'm Muhammed Ajnas, a UI/UX Designer passionate about creating simple, meaningful, and user-friendly digital experiences. I enjoy transforming ideas and problems into intuitive interfaces through research, wireframing, visual design, and prototyping. With a background in Sociology, I have a strong interest in understanding people and their behavior, which helps me approach design from a user-focused perspective.

MY EDUCATION

UNIVERSITY OF CALICUT / 2022 - 2025

Bachelor in Sociology

AVODHA INSTITUTE / AUG 2026

PROJECT EXPERIENCE

NexClient - Freelancing Client Management App

NexClient is a mobile application designed to help freelancers efficiently manage clients, projects, tasks, invoices, payments, and important business documents in one place. Instead of switching between multiple apps for communication, task management, and billing, freelancers can streamline their entire workflow through a single, intuitive platform.

The app aims to improve productivity, reduce administrative work, and help freelancers focus more on delivering quality work while maintaining strong client relationships.

Tools

Figma • Adobe Photoshop

Rank - Responsive Business Landing Page

Designed and developed a modern, responsive landing page for RANK (West India Plastic Trading Company) using Figma, HTML, CSS, and JavaScript. Focused on clean UI, mobile-friendly layout, product showcase, branch information, testimonials, and customer engagement.

Tools

Figma • HTML5 • CSS3 • JavaScript • Responsive Web Design
